CHANGE PROPOSAL NUMBER		MIL00-39A	
ORIGINATOR	SPONSOR	DATE RECEIVED	DATE OF ACTION
PM FATDS	ARMY	August 6, 2001	July 24, 2003
CHANGE PROPOSAL TITLE			
ADD NEW SYMBOL, TARGET BUILD-UP AREA (TBA), CIRCULAR			
SUGGESTED CHANGE			
<p>The Fire Support community has a requirement to add a new symbol to MIL-STD-2525B.</p> <ol style="list-style-type: none"> 1. The purpose of the Target Build-up Area, Circular symbol is to graphically display Target Build-up Areas, Circular to commanders in the Common Operational Picture (COP)/Common Tactical Picture (CTP). 2. Recommend adding to hierarchy item 2.X.4, Fire Support, under the "Areas" hierarchy, 2.X.4.3, figure B-17, and table B-IV. 			
OVERVIEW:			
<p>Currently, the standard does not contain a symbol depicting Target Build-up Area (TBA), Circular. The purpose of the Target Build-up Area, Circular symbol is to graphically display to commanders and operators the geometry used in the fire support system that prohibits the fire support engagement of a specific target type within a designated area until the number of targets reach the specified threshold established for that target type. Incorporation into MIL STD 2525B, which will be used in JMTK and GSD, will allow the symbols to be transmitted/received by all battlefield system. The Target Build-up Area, Circular is a required symbol for use in the COP/CTP to be shared across the battlefield. The development of the COP/CTP is required of all ABCS component systems. Fire Support systems are the producer of Target Build-up Area, Circular for the COP/CTP. Fire Support systems will retain this capability for fielding throughout the Army and USMC.</p>			
OPERATIONAL DESCRIPTION			
<p>In general, the Target Build-up Area, Circular symbol is used in the fire support system to designate an area that prohibits the fire support engagement of a specific target type until the number of targets reach the specified threshold (e.g., 15 tank targets) established for that type. One (1) point location and a radius defined in meters are required to graphically display a Target Build-up Area, Circular. The minimum information required to interoperate with another system is defined below.</p>			
IMPLEMENTATION			
<p>Description: Fire Support, Areas, Target Acquisition Zones, Target Build-up Area (TBA), Circular</p>			
<p>Parameters:</p> <ol style="list-style-type: none"> 1. Anchor Points. This graphic requires one (1) anchor point and a radius. Point 1 defines the center point of the graphic. 2. Size/Shape. Size: The radius, defined in meters, defines the size. Shape: Circle. The information fields should be scaleable within the circle. 3. Orientation. Not applicable. 			
<p>Fixed/Dynamic: Dynamic</p>			
<p>Hierarchy: 2.X.4.3.3.8.3</p>			
<p>Symbol ID: G*F*AZBC--****X</p>

C/S/A COMMENTS			
DECISION NOTICE			
Approved at SSMC 2-03.			

Attachment A

Tasks:

1. Modify Figure B-17 to reflect new hierarchy structure (Figure B-17 becomes Figures B-17.1 and B-17.2) and addition of new Fire Support graphics.

Figure B-17.1. Fire Support.

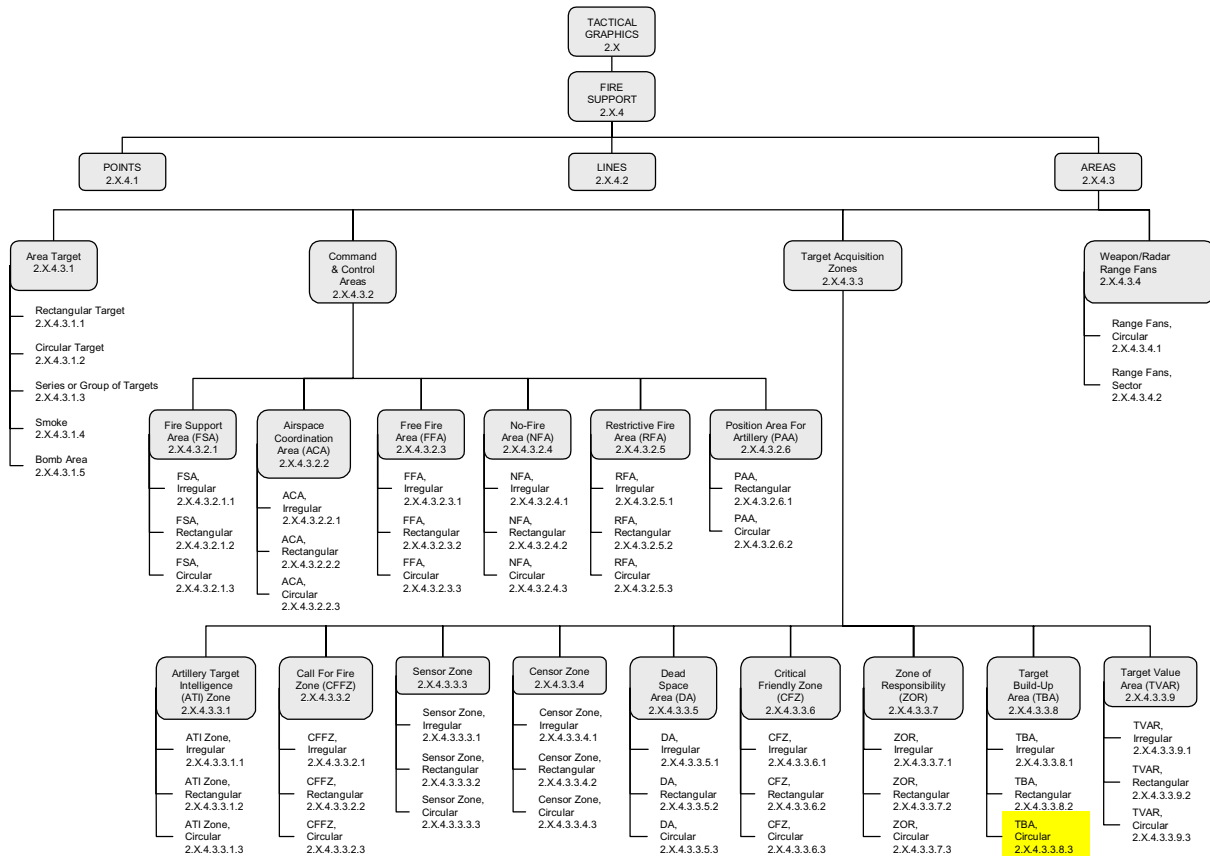

Figure B-17.2. Fire support.

Attachment A

2. Modify Table B-III to reflect restructured hierarchy numbers, provide new symbol IDs for restructured graphics and addition of new graphics' hierarchy numbers and symbol IDs.

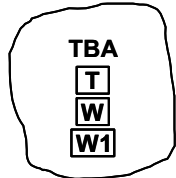

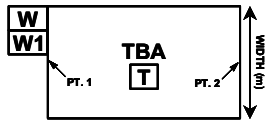

HIERARCHY	CODE SCHEME	AFFILIATION	CATEGORY	STATUS	FUNCTION ID			SIZE/MOBILITY	COUNTRY CODE	ORDER OF BATTLE	DESCRIPTION
